

MICROBLADING BEFORECARE

- 24 hours before your appointment, avoid using any medications or supplements that will dilute your blood, such as Niacin, ibuprofen or aspirin.
- 2 weeks before your appointment, do not wax, pick, tint, tweeze, or laminate your eyebrows.
- Three weeks prior to your appointment, avoid Botox, chemical/laser peels, & skin exfoliants.
- 4 weeks prior to your appointment, avoid retinols or any vitamin A products.
- Do not wax, pick, tint, tweeze, or electrolyze your eyebrows one week before microblading appointment.
